COMGUARD

Preventative Maintenance Software

New Installation!

**Hensall District Co-operative in Ontario, Canada
has chosen ComGuard as their Maintenance Software package!**

Listen to what they are saying about it....

“Comco’s ComGuard package has allowed us to begin developing a truly effective Preventative Maintenance Plan.”

“The Maintenance History feature allows us to see the actual maintenance time that is spent on every piece of our equipment.”

“The ability to upload files into the program has been very beneficial. Blueprints, supplier documents and manuals all in one central location for easy reference.”

Web-based Technology

Access this system from anywhere (great for remote managers).
Compare information for multiple locations.

Know your Maintenance History

Have a comprehensive maintenance history throughout the facility on every piece of equipment.

Organize Maintenance Manuals

Save all maintenance documents and manuals within the program. Download supplier documents/maintenance instructions for everyone to access.

**Get ComGuard for your facility
Pricing starts at \$2000!**

**No additional licensing fees
No yearly fees**

**Fax in the cover page
or call us to find out how!**

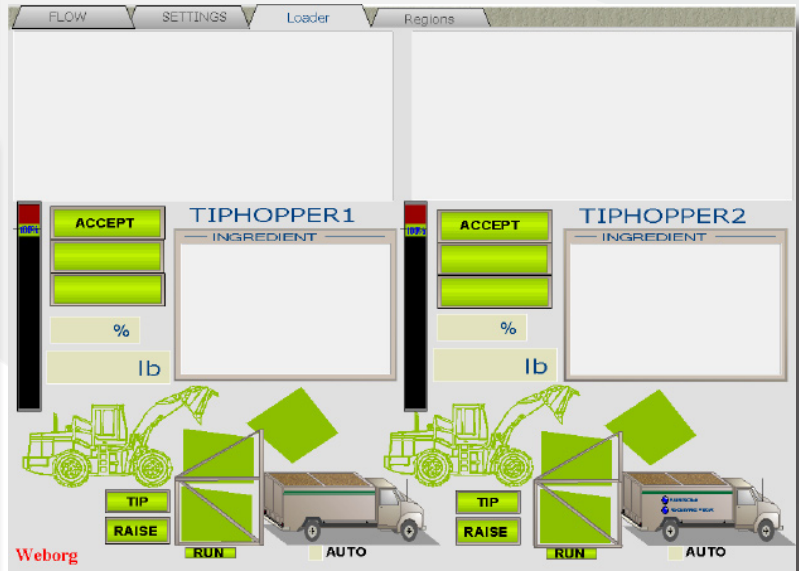

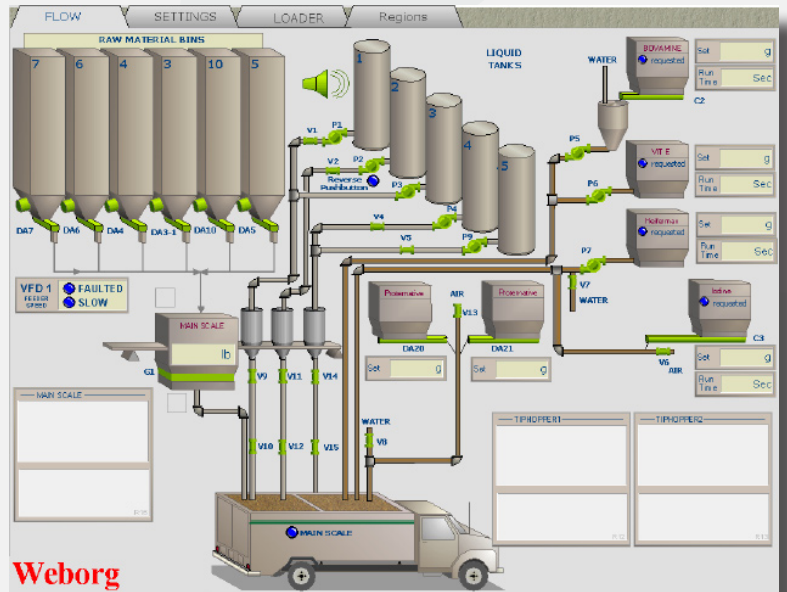

AUTOMATION SYSTEMS

Feed Yard: Pender, NE

- Electrical Control Design
- PLC and HMI Programming
- On-site Commissioning and Training

“I am very impressed with the flexibility of the system. I am saving at least 1 hr per day on feeding time alone, and the laptop out in the loader is a great feature.”

-Craig Weborg, Weborg Feedlot
